THE ENGINEER
SONG

LOOK AT THESE EXAMPLES

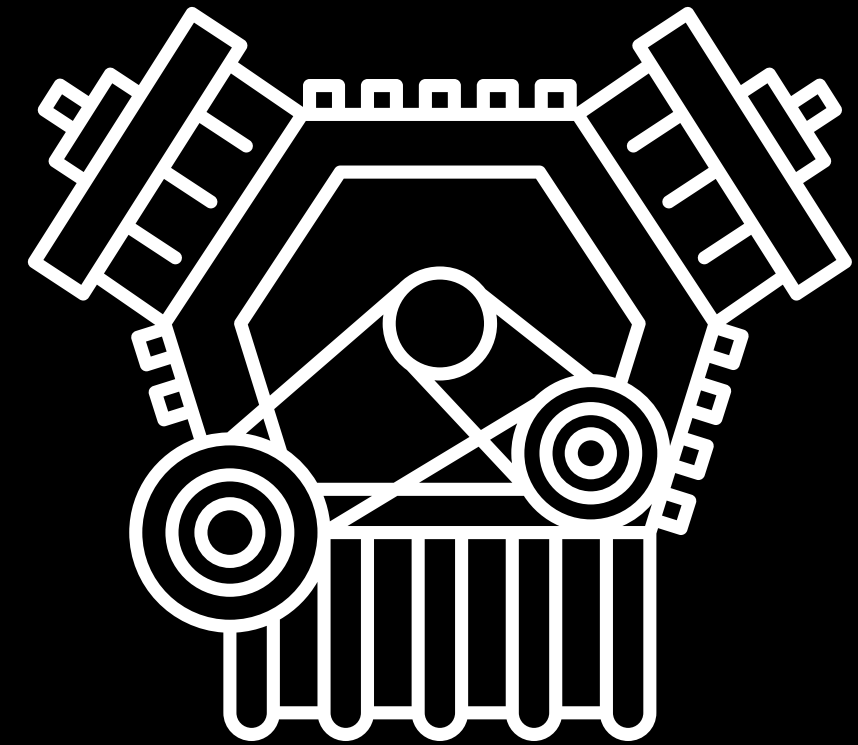

Pete the Piston

The primary function of a diesel engine piston and the internal engine combustion process.

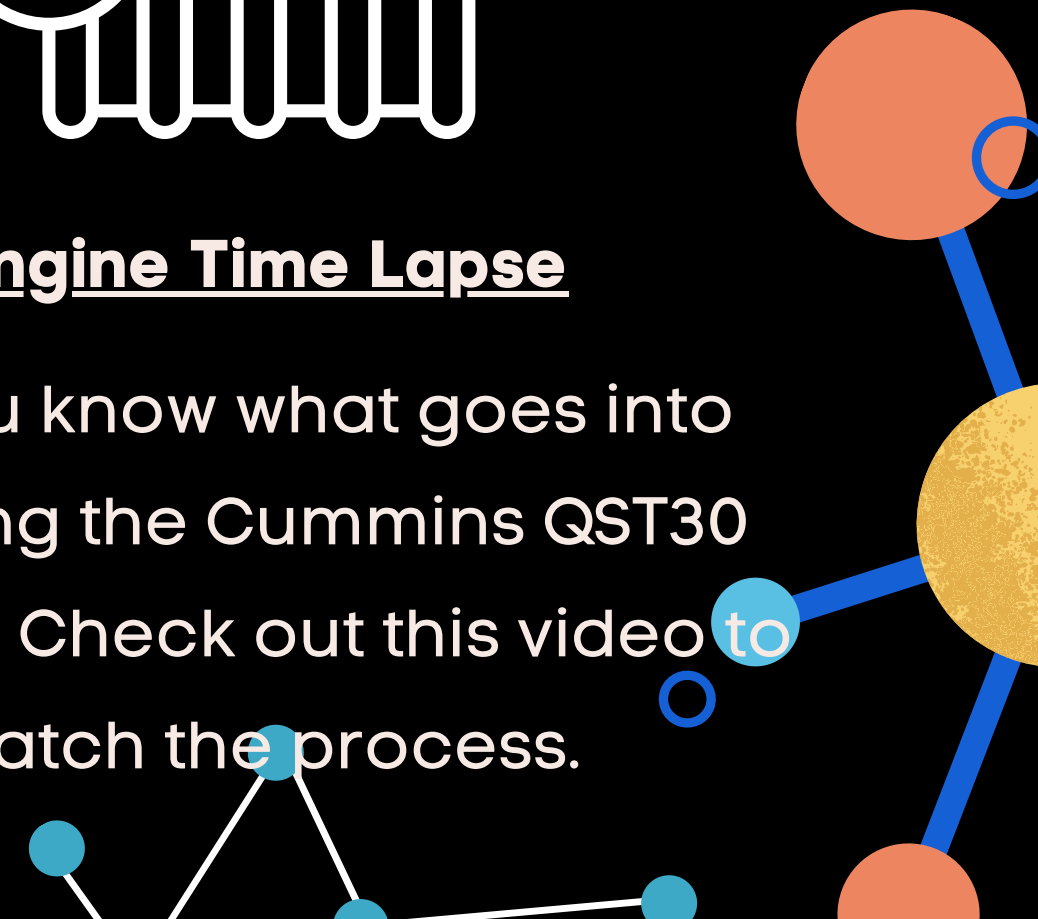

The Remanufacturing Process

Turbochargers provide an environmentally friendly and reliable solution that quickly puts your equipment back to work

Engine Time Lapse

Do you know what goes into creating the Cummins QST30 engine? Check out this video to watch the process.

CELEBRATING **DIVERSITY AT** **CUMMINS**

Diversity

Diversity and inclusion means our individual differences never have to be checked at the door.

Equality

The Cummins Technical Women Initiative fosters a diverse and inclusive environment for all technical employees and seeks to inspire future generations of women in STEM fields.

Inclusion

Every day, our employees embrace our philosophy of inclusion and equity by operating across cultures, functions, language barriers and time zones to solve the technical and logistical challenges.

The background features a dark blue field with several stylized gears in green, light blue, and white. Two large circular frames, one on the left and one on the right, contain abstract blue and green patterns, including starburst shapes and small circles. The main text is centered in a bold, white, sans-serif font.

LOOKING AFTER OUR ENVIRONMENT

Cummins Environment Stewardship

Planet 2050

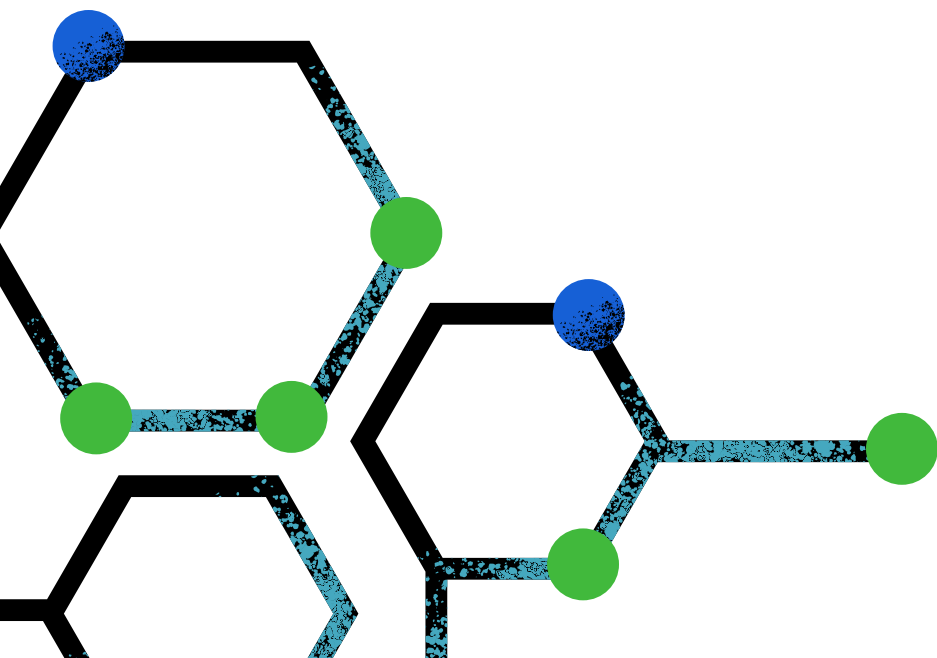

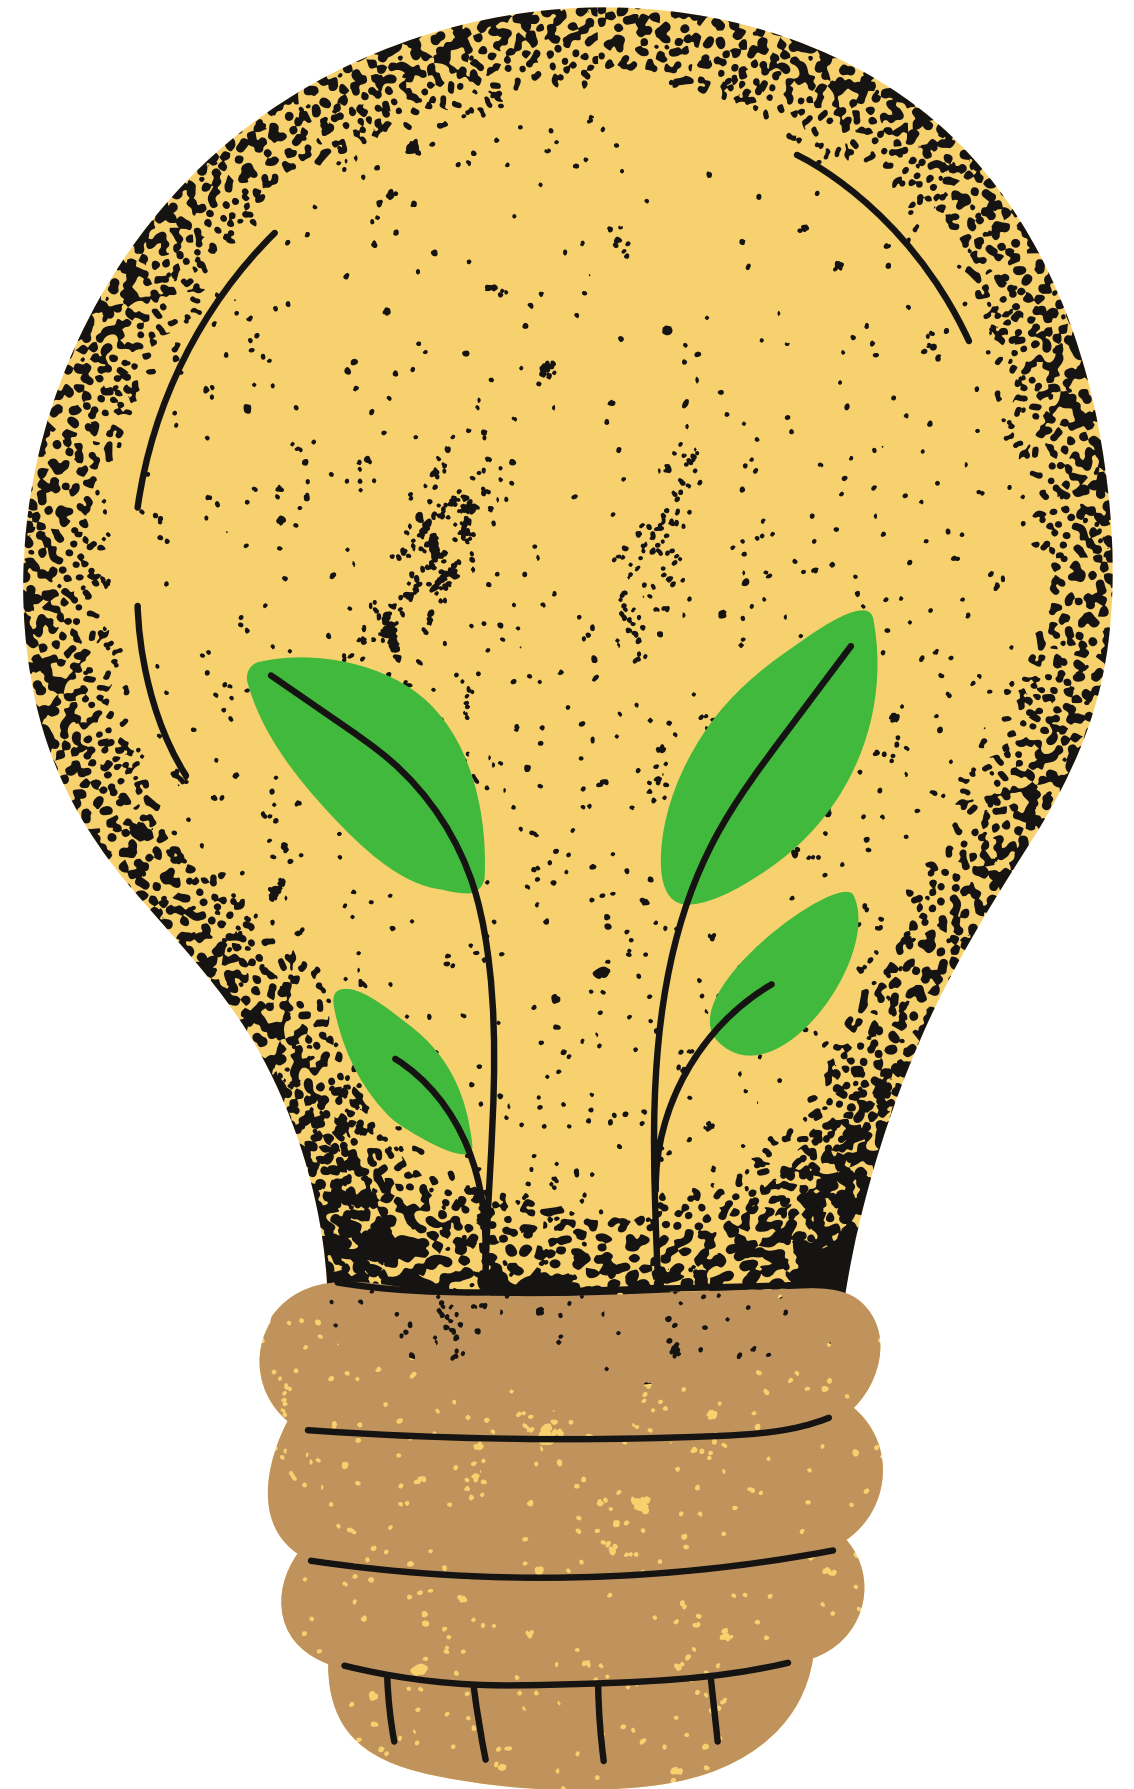

TRANSFORMING A DIRTY
WASTE PRODUCT INTO
CLEAN ENERGY

DESTINATION ZERO

It's our mission to power a more prosperous world. We do this by helping customers succeed through innovative and dependable products that are good for our customers and the environment.

THE TIME
FOR CHANGE
IS NOW

Thank you
